PROJECTS

AIRLINE MANAGEMENT SYSTEM

Jun 2024 - Present
Developing an airline management system using a DBMS
(e.g., MySQL) to manage flight information, passenger
bookings, and reservations. This project is currently in
progress and focuses on functionalities such as:
Flight scheduling and management
Passenger booking and reservation processing

My involvement in this project allows me to gain hands-
on experience in database design, writing SQL queries,
and data manipulation in a simulated airline management
environment.
